Dyna-Mac (DMHL SP)

New substantial shareholder; overhang cleared

Maintain BUY, SGD0.46 TP; Stake sale at 10% premium

Dyna-Mac's substantial shareholder Keppel Corp has sold its entire stake (23.9%) in Dyna-Mac to Hanwha Aerospace and Ocean for SGD100m or SGD0.40/share, a 10% premium to the closing price on Friday. We believe this is a key positive as it removes an overhang, as Keppel had already stated its intentions to sell all its non-core assets. Hanhwa Ocean is one of the largest shipbuilders in South Korea. It aims to build a green energy value chain and could create more direct synergies with Dyna-Mac. We maintain a bullish outlook for FPSO with Dyna-Mac a key beneficiary of this multi-year upcycle. Maintain BUY.

Potential key synergies could benefit Dyna-Mac

Hanwha Ocean provides one-stop solutions for top and bottom structures, including FPSO, which is in the same business as Dyna-Mac. We believe they could form partnerships and create synergies that both parties could benefit from in the booming FPSO space. Hanwha Ocean's investment also represents firm confirmation by one of the industry's largest players of Dyna-Mac's value and potential.

Orderbook doubles to SGD896m

Dyna-Mac secured several contracts worth a total of SGD456.m, more than doubling its orderbook to SGD896m with project deliveries stretching to 2026. The main contract involves the construction of process modules and marks the largest-ever contract win in Dyna-Mac's history, involving a record tonnage and a number of process modules in a single contract. The other contracts include the provision of services for the execution, fabrication, installation and integration work on vessels, and scope increase for current projects.

Should continue to re-rate as profitability increases

Despite Dyna-Mac's strong share price performance (+27.6% YTD), we believe it will continue to benefit from the strong demand for FPSO and continue to re-rate as it executes its larger-size contracts and achieves higher profitability. Maintain BUY.

Abbreviations explained

 $\ensuremath{\mathsf{FPSO}}$ - Floating, production, storage and offloading

EPC - Engineering, procurement and construction

Value Proposition

- Global EPC service provider to the world's energy market.
 Dyna-Mac has 2 fabrication yards in Singapore totalling 140,000 sqm.
- Zero debt and SGD128.5m net cash, which could fund inorganic growth to fast-track earnings growth.
- Riding the O&G industry's tailwind; we forecast 30% earnings CAGR in the next 2 years despite being loss-making in FY20.
- We expect Dyna-Mac to continue to win larger contracts.
- It has clear ESG policies and strategies.

Source: Company, Maybank IBG Research

- 1. In Feb'20, issued profit warning of a loss for FY19.
- 2. In Mar'20, the new CEO and management team joined the company.
- 3. In Feb'21, announced FY20 loss of SGD58.4m.
- 4. In May'22, said it won a SGD180m order and subsequently announced a strong outlook for 2022.
- 5. Oil price weakened due to fears of a global recession after the spike caused by the Russia-Ukraine war.

Financial Metrics

- Revenue more than doubled since new management came on board in FY20, and we forecast 20+% growth pa for the next 2 years.
- Turned around from a loss of SGD58.4m in FY20 to a profit of SGD13.4m in FY22.
- Strong net cash position with no debt.

Dyna-Mac is in a net cash position (SGDm)

Swing Factors

Upside

- Riding the boom in the O&G sector.
- We expect Dyna-Mac to win larger contracts, boosting its revenue and order book, which is already at a high.
- Inorganic growth through acquisitions due to net cash balance sheet.
- We forecast strong organic earnings growth of at least 30% CAGR for the next 2 years.

Downside

- Declines in oil prices reduce investment in the O&G space.
- Higher labour costs will reduce margins.
- New competitors entering the industry may temporarily reduce Dyna-Mac's market share.

Business Model & Industry Issues

- As a global multi-disciplinary contractor for the O&G industry, the group places significant emphasis on protecting the environment. Dyna-Mac has also ventured into adjacent areas like LNG modules and renewable energy in decarbonisation with a focus on green hydrogen/ammonia production modules. By diversifying and leveraging its core capabilities, Dyna-Mac is poised to move up the value chain and ride the changing demands of the energy industry.
- The group has restructured payment terms with customers (i.e. requesting more up-front payment for contracts), repaid all its debts as well as focusing on its key expert area (FPSOs), which has seen growing investments by O&G producers. Dyna-Mac also streamlined its operations and improved efficiency, boosting margins as a result.
- The key risk would be another downturn in the O&G industry, which would result in a lull period and drop in profits. However, the group is actively looking for inorganic means to diversify into a more sustainable revenue source via maintenance or servicing revenue.

Material E issues

- The electricity usage in the yards is mainly for welding machines, CNC plasma cutting machines, band saw/pipe cutting machines, bevel machines of pipe joints, electrical hand tools, and main air-compressors and workshop lights. During 2021, Dyna-Mac implemented measures to reduce energy consumption.
- Fuel consumption is mainly diesel oil to operate vehicles and machines. Dyna-Mac schedules regular maintenance of vehicles and machines to ensure efficient working condition. To support the green initiative, the company has started to use electric forklifts instead of diesel-powered forklifts for the entire warehouse and use electric compressors instead of diesel-engine air compressors.
- Dyna-Mac recognises that proper waste management is crucial to protect the environment and ensure health and safety of the communities it operates in. Managing the proper disposal of waste is especially important for this industry. By shifting towards adoption of the 3Rs (Reduce, Reuse, Recycle), it can also reap cost savings for the business.

Material S issues

- To better manage and improve site operational efficiency, Dyna-Mac partnered with a licensed private HCP in June 2021 and was approved by the Ministry of Health to conduct the self-swab Rostered Routing Testing Polymerase Chain Reaction testing at the company's designated premises.
- The Flexible Work Arrangement Policy was established on 1
 July 2021 to give employees work-life balance while
 upholding a strong sense of personal responsibility of work
 standards.

Key G metrics and issues

- The board has six directors, including the Executive Chairman, the CEO and four non-executive directors, of which two are independent.
- 40% of the board are females, which demonstrates good diversity.
- Under the Board Diversity Policy, the board strives to have one member with relevant experience in the Group's businesses or markets; and one member with professional qualification in accounting, legal or other professional backgrounds or disciplines as may be determined by the board to be necessary and/or beneficial to the Group.
- Management has also implemented the whistle-blowing policy by setting out the procedures that provide for the well-defined mechanism and accessible channel by which employees, vendors, contractors, service providers, customers and other stakeholders may in confidence, raise concerns about possible improprieties, misconduct, irregularities or malpractices relating to the company and its officers without fear of harassment or victimization.

<u>Risk Rating & Score</u> - derived by Sustainalytics and assesses the company's exposure to unmanaged ESG risks. Scores range between 0 - 50 in order of increasing severity with low/high scores & ratings representing negligible/significant risk to the company's enterprise value, respectively, from ESG-driven financial impacts. <u>*Score Momentum</u> - indicates changes to the company's score since the last update - a <u>negative</u> integer indicates a company's improving risk score; a <u>positive</u> integer indicates a deterioration. <u>**Scontroversy Score**</u> - reported periodically by Sustainalytics in the event of material ESG-related incident(s), with the impact severity scores of these events ranging from Category 0-5 (0 - no reports; 1 - negligible risks; ...; 5 - poses serious risks & indicative of potential structural deficiencies at the company).

Technical ratings may differ from fundamental ratings as technical valuations apply different methodologies and are purely based on price and volume-related information extracted from the relevant jurisdiction's stock exchange in the equity analysis. Accordingly, investors' returns may be less than the original sum invested. Past performance is not necessarily a guide to future performance. This report is not intended to provide personal investment advice and does not take into account the specific investment objectives, the financial situation and the particular needs of persons who may receive or read this report. Investors should therefore seek financial, legal and other advice regarding the appropriateness of investing in any securities or the investment strategies discussed or recommended in this report.

The information contained herein has been obtained from sources believed to be reliable but such sources have not been independently verified by Maybank Investment Bank Berhad, its subsidiary and affiliates (collectively, "Maybank IBG") and consequently no representation is made as to the accuracy or completeness of this report by Maybank IBG and it should not be relied upon as such. Accordingly, Maybank IBG and its officers, directors, associates, connected parties and/or employees (collectively, "Representatives") shall not be liable for any direct, indirect or consequential losses or damages that may arise from the use or reliance of this report. Any information, opinions or recommendations contained herein are subject to change at any time, without prior notice.

This report may contain forward looking statements which are often but not always identified by the use of words such as "anticipate", "estimate", "intend", "plan", "expect", "forecast", "predict" and "project" and statements that an event or result "may", "will", "can", "should", "could" or "might" occur or be achieved and other similar expressions. Such forward looking statements are based on assumptions made and information currently available to us and are subject to certain risks and uncertainties that could cause the actual results to differ materially from those expressed in any forward looking statements. Readers are cautioned not to place undue relevance on these forward-looking statements. Maybank IBG expressly disclaims any obligation to update or revise any such forward looking statements to reflect new information, events or circumstances after the date of this publication or to reflect the occurrence of unanticipated events.

Maybank IBG and its officers, directors and employees, including persons involved in the preparation or issuance of this report, may, to the extent permitted by law, from time to time participate or invest in financing transactions with the issuer(s) of the securities mentioned in this report, perform services for or solicit business from such issuers, and/or have a position or holding, or other material interest, or effect transactions, in such securities or options thereon, or other investments related thereto. In addition, it may make markets in the securities mentioned in the material presented in this report. One or more directors, officers and/or employees of Maybank IBG may be a director of the issuers of the securities mentioned in this report to the extent permitted by law.

This report is prepared for the use of Maybank IBG's clients and may not be reproduced, altered in any way, transmitted to, copied or distributed to any other party in whole or in part in any form or manner without the prior express written consent of Maybank IBG and Maybank IBG and its Representatives accepts no liability whatsoever for the actions of third parties in this respect.

This report is not directed to or intended for distribution to or use by any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. This report is for distribution only under such circumstances as may be permitted by applicable law. The securities described herein may not be eligible for sale in all jurisdictions or to certain categories of investors. Without prejudice to the foregoing, the reader is to note that additional disclaimers, warnings or qualifications may apply based on geographical location of the person or entity receiving this report.

Due to different characteristics, objectives and strategies of institutional and retail investors, the research products of MST Institutional and Retail Research departments may differ in either recommendation or target price, or both. MST reserves the rights to disseminate MST Retail Research reports to institutional investors who have requested to receive it. If you are an authorised recipient, you hereby tacitly acknowledge that the research reports from MST Retail Research are first produced in Thai and there is a time lag in the release of the translated English version.

The disclosure of the survey result of the Thai Institute of Directors Association ("IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information. The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey may be changed after that date. MST does not confirm nor certify the accuracy of such survey result.

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, MST does not confirm, verify, or certify the accuracy and completeness of the assessment result.

Definition of Ratings

Maybank IBG Research uses the following rating system

BUY
Return is expected to be above 10% in the next 12 months (including dividends)
HOLD
Return is expected to be between 0% to 10% in the next 12 months (including dividends)
SELL
Return is expected to be below 0% in the next 12 months (including dividends)

Applicability of Ratings

The respective analyst maintains a coverage universe of stocks, the list of which may be adjusted according to needs. Investment ratings are only applicable to the stocks which form part of the coverage universe. Reports on companies which are not part of the coverage do not carry investment ratings as we do not actively follow developments in these companies.
